

# Software Assurance

## SwA Forum

September 12-16, 2011

Software Engineering Institute

4301 Wilson Blvd., Arlington, VA 22203

## SwA Working Groups

November 28-December 2, 2011

MITRE

7525 Colshire Dr., McLean, VA 22102

NIST

**The Software Assurance (SwA) Forum and Working Groups bring together members of government, industry and academia to discuss and promote software integrity, security, resilience and reliability.** The September SwA forum will help you better understand what others are doing and extend your network of collaborators. The November Working Group sessions will focus on actions identified as a result of the recent SwA Forum.

**Co-sponsored by organizations in DoD, DHS and NIST, the SwA Forum and Working Groups offer a chance to actively participate in driving SwA initiatives forward.**

Attendance at the SwA Forums and Working Groups qualifies for continuing professional education credits from International Information Systems Security Certification Consortium, Inc., (ISC)<sup>2</sup> and Information Systems Audit and Control Association (ISACA).
